#### **DETAILED ACTION**

1. This communication is in response to the applicant filed 7/31/2003. Claims 1-3, 11-13, 15 are pending in the application. Detailed action is followed:

## **Drawings**

2. The drawings are objected to because the IP router 112 does not show in Fig. 1-3. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Application/Control Number: 09/468,164 Page 3

Art Unit: 2666

4. Claims 1-2, 11-13, & 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Mawhinney (U.S. Patent No. 6269082 B1).

- With respect to claims 1-2, 11-13, & 15, Mawhinney teaches a method for performing network diagnostics, which are interpreted as method of testing telecommunications systems, which include both circuit switching and packet switching components comprising the steps of:

a circuit switching component (Mawhinney explicitly teaches the DTEs are circuit switching component that assembled/reassembled at the ATM DSU, Fig. 2) initiating a loopback test that encompasses communications path through a packet switching component (col. 11, lines 65-67);

the packet switching component returning a looped back test message to the circuit switching component (col. 14, lines 1-10);

the circuit switching component responding to the reception of the returned test message by determining that the path encompassed by the packet switching component is operational (col. 10, lines 10-14, lines 30-40);

and the circuit switching component responding to absence of a returned test message from the packet switching component by determining that the path encompassed by the packet switching component is not operational, or provisioning data is not consistent with the communication path (col. 10, lines 40-46).

#### Allowable Subject Matter

5. Claims 3-10, 14, 16-18, and 19-20 are allowed.

Art Unit: 2666

## Response to Arguments

6. Applicant's arguments with respect to claims 1-2, 11-13, & 15 have been considered but are most in view of the new ground(s) of rejection.

#### Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to PHUC H TRAN whose telephone number is (703) 308-7471. The examiner can normally be reached on M-F (8-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, RAO SEEMA can be reached on (703) 308-5463. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9314 for regular communications and (703) 872-9314 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 872-9314.
